Education

Trinity College, University of Cambridge, UK

2023 - 2026

- **Double First Class Honours** BA (2023-2026) Computer Science. **Junior & Senior Scholarship**
- Class rank 11 / 118 (2026), 9 / 121 (2025), 16 / 124 (2024).

Palo Alto High School, Palo Alto, CA

2019 - 2023

- Weighted GPA **4.52 (A+)**, SAT - **1560** (98%), PSAT - **1490** (98%)
- **Ten** Advanced Placement Classes - **all awarded Grade 5 (highest grade)**
- National Merit Scholarship Finalist, AP Scholar with Honors

Foothill College, CA

- Calculus (**Grade A+**), Calculus II (**Grade A+**), Linear Algebra (**Grade A+**)

2022 - 2023

Euler Mathematics Circle, Palo Alto, CA

2019 - 2023

- Wrote 12 expository papers & progressed to Advanced Class

Ross Mathematics Program, Columbus, OH

2022

- Selected to attend six week residential Number Theory course

College of San Mateo, CA

- Macroeconomics (**Grade A**), Microeconomics (**Grade A-**)

2020 - 2021

Science Bowl Team Captain

2016 - 2023

- Captain, High School Team (Regional quarter-final) / Middle School Coach

Projects

SDQL Compiler (Undergraduate Dissertation)

2026

- Dissertation received first-class honours.
- Extended programming language with novel fixpoint construct, wrote compiler in Rust + Lean

Camfess (camfess.org.uk)

2026

- Wrote cryptographic website for students with verified anonymity, 100+ users

Skills

- **Languages** Python, Javascript, Java, Haskell, C/C++, Go, Rust, SQL, LLVM, PyTorch
- **Skills:** Quick learner, System Design, Independent research, Self-starter attitude
- **Technical** Linux, NixOS, Machine Learning, WebDev, Networking, TCP/IP, Data Structures

Experience

Internship - Xantium Group - Tudor Investment Corporation

2026 - 2026

- Quantitative Developer for CME Mid-Frequency Trading
- Created local backtesting toolkit used by multiple teams
- Developed Benchmarking backtest in C++ and Python

Internship - University of Birmingham, Dept of Computer Science

2024 - 2025

- Verified Neural Networks with Prof. Mirco Giacobbe
- Formalised program termination analysis in Lean4 Theorem Prover
- Presented to nuXmv Maintainers at Bruno Kessler Foundation, Italy
- Created paper accepted for POPL Student Research Competition, Denver 2025

Internship - University of Cambridge, Dept of Computer Science

2024 - 2025

- Developed Finite-State Machine tool for hardware verification in LLVM/CIRCT
- Contributed to academic paper for OOPSLA 2026 conference
- Developed LLVM Compiler Verification in Lean supervised by Dr. Tobias Grosser

Treasurer - Fisher Society, Cambridge

2023 - today

- Financial management, planning and budget for 800 members
- Event organisation and management in collaboration with committee of 15 students

Self-Taught Experience

2018 - today

- Mentor Conal Elliott; used theorem prover to verify circuits with category theory
- Automated Theorem Provers, Dependent Type Theory, Software Verification

Leader Palo Alto Python Club

2018 - 2023

- Organized Machine Learning Course & Hackathon
- Tutored disadvantaged 30+ local students

Personal

- Citizenship: UK / US / Australia; viola in chamber group, hiking, travel & theorem provers
